

Degreasing 2050

Soak cleaner for aluminium

Degreasing 2050 is free of silicates and cyanides and designed for the activation of aluminium. This product contains chelating agents, which dissolve oxides and make the degreasing solution insensible against water hardness. Instead of silicates there are other builders to get high dispersing ability. The degreasing solution is used as soak cleaner.

Properties and benefits

- Free of silicates
- Free of cyanides
- Good oxide solubility
- Soak clean

Application area

- Aluminium

Technical Data

Electrolyte properties

Parameter	Range
Temperature	50 - 60 °C
Time of exposition	Approx. 10 minutes
